REPORT

World population day was celebrated on the 11th of July, 2021 by the students of various departments of South Calcutta Girls' College and was organized by the Geography Department in a virtual mode.

When a tiny virus catapulted the whole college to virtual mode, we found ourselves in a relatively better position to begin these celebrations virtually. Students were asked to make posters and PPTs on World Population Day on specific topics. The creativity and resourcefulness of the students while presenting their posters and presentations left us amazed. With a lot of excitement and enthusiasm, many students from other departments also participated in this program. This experience helps them to come out of their initial hesitance and encourages them to ideate, explore, share their thoughts within and beyond the curriculum.

TOPIC: PROTECT OUR EARTH IN YOUR OWN WAY.

REPORT

World Earth Day celebrated on 22nd April by the Geography Department of South Calcutta Girls College, was among those events performed on a virtual mode. The pandemic did prevent us from gathering together for various programmes, but we managed to make it happen despite challenging circumstances.

The concept was shared with our students who took an initiative to celebrate “Earth Day”, in their best possible ways. Some of them managed to do nature service in their localities while others celebrated it at their homes. Their amazing enthusiasm to plant trees, water them, feed birds, recycle old bottles by painting them and creating decorative show pieces using old pens, really thrilled us! This not only prevents waste accumulation but also protects our biodiversity and our surrounding environment.

We are extremely proud of our students for taking such a great approach towards the Earth.
