# FEMINISM

### #FEMINISM

Feminism refers to any ideology that seeks equality in rights for women, usually through improving their status. Feminism is rooted in ending male historical power and women's representation in political history, particularly from the 19th century. It is a movement that seeks to challenge the status quo, such as ending gender pay gaps, ensuring female voting and political rights, and increasing what is considered 'female' and 'male'.

The word 'feminism' seems to refer to an inherent movement of identity as a woman and influence in politics. Women is central part of history and it is the main cause of society according to 'Jane Plummer', the essence of feminism has a strong fundamental cause. It is to be seen that there are excellent reasons for having that women suffer from systematic social injustice because of their sex. The proposition is to be regarded as 'unjustified gender'. This makes feminist thought is largely rooted in the Western intellectual tradition, the theory is gaining currency throughout the world in many cases, the feminist goal of equality for women has helped gender movements around the world to change the entire way people behave. It is worth to note that even though people have been the greatest advocates of feminism.

We cannot all understand how we are held back.

is the main reason in female should have with some assistance from the international community, the entire the civil war and subsequently replaced the chaotic, unendingly corrupt, and general dictatorship with a democratic system. Democracy, women's rights in society have long been debated. India Republic suggests that in a democratic system would be established and would work better than men equality.

However, most of the feminism was carried out by men. Feminism has been the dominant force in the world, but it is not the only one. It is a movement that seeks to challenge the status quo, such as ending gender pay gaps, ensuring female voting and political rights, and increasing what is considered 'female' and 'male'.

44 LET'S KEEP TELLING THE WORLD OVER AND OVER AGAIN THAT YES, WOMEN'S RIGHTS ARE HUMAN RIGHTS AND HUMAN RIGHTS ARE WOMEN'S RIGHTS, ONCE AND FOR ALL."

FEMINISM INCLUDES ALL GENDERS

Cultural & Economic Relations  
between China & India

Cultural & Economic relations between China & India date back to ancient times. The Silk Road not only served as a major trade route between India & China, but is also credited for facilitating the spread of Buddhism from India to East India.

Relation between Contemporary China & India have been characterised by border disputes, resulting in three military conflicts. The Sino-Indian wars of 1962, the Chola incident in 1967 & the 1987 Sino-India skirmish. Trading partners & the two countries have also extended their strategic & military conflict relations. Apart from trade & commerce there are some other areas of mutual interest on which China & India have been cooperating of late. In the words of Rajul Karim Laskar, a scholar of Indian foreign policy. Currently the two countries are cooperating on a range of international like trade, climate change & reform of the global financial order among others to promote common interest.

In June 2012 China stated its position that Sino-Indian could be the most important partnership of the century. That month Wen Jiabao, the PM of India - Manmohan Singh.
