IMPORTANT THINGS TO REMEMBER

- REGULAR CHECKING OF COLLEGE WEBSITE
- REGULAR FOLLOWING OF NOTICE
- REGULAR CHECKING OF MAILS
- REGULAR ATTENDING VIRTUAL CLASSES IN THIS PANDEMIC SITUATION
- NEVER CHANGE THE MAIL ID ONCE GIVEN TO THE COLLEGE. OTHERWISE YOU WILL MISS THE COMMUNICATION.

SWOC Analysis:

STRENGTH:

- Demand of subject, demand ratio- 1:8
 - Well equipped department.
 - Extensive use of all types of teaching aids.
 - Good result
 - Dedicated teachers.
 - Excellent teaching learning environment.
 - Co-operation from laboratory support staff.
 - Disciplined group of students.
 - Supporting parents

•WEAKNESS:

- Shortage of space
- Shortage of faculty

SOUTH CALCUTTA GIRLS' COLLEGE

DEPARTMENT OF PSYCHOLOGY

OVERVIEW OF THE DEPARTMENT

- The department of Psychology has started undergraduate general course in the year 2006 and in 2016 undergraduate honours course was introduced.
- Besides, the department also runs counselling programme jointly with the counselling cell of the college.
- Presently this department is contended with 4 teaching faculties as well as an academic counsellor and 1 non-teaching faculty member who looks after the departmental laboratory.
- Most of the faculties of this esteemed department have ample research experiences as they holdup with doctorate degree as well as publications in various national and international peer reviewed journals.
- The faculties also possess with many years of teaching experiences. The student strength of this department is 17 which include both general and reserved categories.

TEACHING LEARNING

- The teaching learning activities of this department is running by the blended mode (online and offline) with the help of various aids such as- lectures, practical, audio-visual presentations, group discussions etc.
- In the process of learning through offline teaching learning mode students can avail good number of classical and current books from the central and seminar libraries. These books are suggested by the respective departmental Teachers.
- In online mode the activities are now being imparted through Google classroom, G-meet app and also with the help of online LMS. In online LMS mode, Teachers and students with on cloud user id and password can access to their account to upload as well as download the study materials.
- Though concerned Teachers will also upload materials to the Google classroom and students of that particular class will have access to those materials to download for their academic purpose.

TEACHING LEARNING CONTINUED...

• Recently the respective department has included another program as part of the teaching-learning activity, is known as Mentor-Mentee ratio. In Mentor-Mentee ratio certain number of mentees (students) will be assigned under a respective mentor (Teacher) who will keep detail records of all the mentees and will also look after the various issues related to their academics. Under this system, just after one month a class test will be taken by the respective department to identify those students who are learning progressively (advanced learner) and also those who are learning slowly (slow learner). Academic activities of both these groups will be analyzed and accordingly measures will also be taken.

CAPACITY BUILDING

The department of Psychology is contended with the classical and recently updated books as well as laboratory equipments with good quality and sufficient in numbers. Right from 2011 with the positive intent of capacity building, the department of Psychology is organizing various activities and faculties are also participating in various training program. The previously conducted activities as well as participation in training program by the faculties are as follows-

- UGC funded Interdisciplinary Project "Not Ours Not Theirs: Anglo-Indian Community in India from the middle of the 18th century to 20th century" in the session 2011-2012.
- UGC funded Interdisciplinary Project "Man and Nature" in the session 2016-2017.
- A Presentation was organised on February 2016 on "Soft Skill Training in Counselling" along with the Department of Education.
- Dr. Partha Malakar and Dr. Debangana Chakraborty attended Workshop on CBCS at the Bijoy Krishna Girls' College on 6th December 2017.

CAPACITY BUILDING CONTINUED....

- Intelligence Assessment Program was conducted by Dr. Partha Malakar on 13TH October 2018.
- Dr. Partha Malakar, Dr. Debangana Chakraborty and Annesha Ganguli attended the workshop on CBCS Semester 2 at Asutosh College on 16th and 23rd February 2019.
- Dr. Debanjali Pal Choudhury, Dr. Debangana Chakraborty and Annesha Ganguli attended the workshop on CBCS Semester 3 at Loreto College on 26th and 27th July, 2019.
- Dr. Partha Malakar attended a NAAC sponsored National Seminar on Opportunities and Challenges: The Role of IQAC in Governance, Leadership and Management organized by IQAC at Bijoy Krishna Girls' College on 18th September, 2019.
- As a part of capacity building of the students, this respective department organizes Students' seminar on some relevant topics of Psychology in which students participate with wall magazine, poster presentation as well as power point presentation.

CAPACITY BUILDING CONTINUED....

- Each year this respective department jointly with Counseling cell conduct interdisciplinary seminar to celebrate world's Mental Health day and also to observe world's suicide prevention day.
- This respective department also organizes seminar-lecture on emerging psycho-social issues by the eminent professors as well as Government officers of this respective discipline.
- In 2020, this respective department along with the Counseling cell had organized a state level webinar on Psycho social well being in pandemic condition (COVID-19) by involving more than 150 participants. Speaker of this program was the eminent psychiatrist Dr. Rima Mukherjee.
- As a part of contributions to the researches for COVID-19, in 2020 Dr. Partha Malakar published a book chapter on Humour and Psychological wellbeing during COVID-19 pandemic

SCOPE

• Scope of psychology is wide open. To be a psychologist, one needs to have at least masters in either Psychology or Applied Psychology. Thereafter, to be designated as Clinical Psychologist, candidates need to have Mphil in Clinical Psychology from the RCI approved Institutions. Besides, this subject also offers Ph.D. in its various sub fields. Higher qualifications are almost desirable for successful persuasion of activities in various Teaching, Research, Clinical and Industrial fields.

PROGRAMME OUTCOME

- **PO.1.** Should have clear concept about the basic and fundamental psychological principles such as basic psychological processes and experimental psychology.
- **PO.2**. Should have a balancing view about the Nature-Nurture debate and must learn to predict human behavior in terms of the combined effect of genetic, psychosocial and socio cultural variables.
- **PO.3.** Should have knowledge about the way how societal changes influence human behaviour and also how individual and group influence on societies can bring social reformation that may or may not be accepted by the society.
- **PO.4.** Should have adequate self knowledge and must learn to accept and respect diversities in the society and in turn develop unconditional positive regard which is expected to develop well being of the self and societies as a whole.
- **PO.5.** Should have conception about why Psychology is a science and in this regard should develop basic methodological conceptions and these in combination result in development of research orientation for their higher studies that will certainly strengthen their individual career and help them to contribute to the teaching and research Endeavour.
- **PO.6.** Should have conception about psychological skills like communication, emotional intelligence, stress management etc. Concept of the skill of behavior modification is also very important to develop for their higher studies in the field of psychology.
- **PO.7.** Should learn to conduct and contribute to small workshops, seminar and study visit in their higher studies and must also be able to write report after conducting and contributing to these program.

PROGRAMME SPECIFIC OUTCOME

- **PSO.1.** Through the course they must be able to learn to achieve good marks and sound conception about the subject matter which only can help them to move into their higher grades and will assure their (after semesters) admission for post graduate level.
- **PSO.2.** Good conception in psychometry and methodology will help them in analyzing data that in turn develop their research orientation for future higher studies.
- **PSO.3.** Should develop and sould have knowledge about lab based experiments and paper pencil tests that will certainly enable them to efficiently conduct different experiments and tests in their future studies.
- **PSO.4.** Subject conception, methodological knowledge and report writing skills about students' seminars, talks and departmental workshops will help them to formulate clinical cases, writing psychological test reports and also writing their dissertation or research project report in higher studies.
- **PSO.5.** Knowledge about the Social Psychology will help them to gradually develop to apply different psychological principles to address their personal problems and problems of their surroundings that will possibly help them to develop a platform to contribute to the larger societies in future.
- **PSO.6.** Conception about the different personality theories will certainly help them in gradual development of self knowledge which will certainly strengthen their personalities to combat with the different problems in life.
- **PSO.7.** Knowledge about Industrial Psychology will provide them a brief conception about the organizational climate, behaviour and also regarding administration of psychological tests in industrial settings as well as how employee-employer relationships influence organizational behaviour.
- **PSO.8.** Knowledge in Clinical Psychology is expected to help them in developing conception about development of normal and abnormal behaviors, nature of such behaviors, as well as the different ways to diagnose and treat clinical behaviors such as clinical interviews, administration of the psychological tests and orientation about the psychological interventions.

SYLLABUS

CORE COURSES SEMESTER-I

CC-1: INTRODUCTION TO PSYCHOLOGY

- Objective: To introduce students to the basic concepts of the field of psychology with an emphasis on applications of psychology in everyday life.
- Unit 1: Introduction: What is psychology? Perspectives on behaviour; Methods of psychology; Subfields of psychology; Psychology in modern India. (8 hours)
- Unit 2: Perception: Perceptual processing, Role of attention in perception, Perceptual organization, Perceptual sets, Perceptual constancies, Depth perception, Illusions. (14 hours)
- Unit 3: Learning and Motivation: Principles and applications of Classical conditioning, Operant conditioning, and Observational learning; Cognitive influences on learning; Perspectives on motivation, Types of motivation, Motivational conflicts. (16 hours)
- Unit 4: Memory: Models of memory: Levels of processing, Parallel distributed processing, Information processing; Reconstructive nature of memory; Forgetting; Improving memory. (12 hours)
- Practicum:

Any 2 practicum pertaining to CC-1- (4 hours, per week per batch: 15-25 students)

- 1. Memory- a) Effect of spaced and unspaced method of learning on memorization capacity of the subject
- b) Effect of retroactive inhibition on the memorization capacity of the subject
- 2. Perception- To determine the rate of perceptual reversibility of the subject by using Human Profile/Flower Vase Card

SYLLABUS continued...

CC-2: STATISTICAL METHODS FOR PSYCHOLOGICAL RESEARCH-I

- Objective: To familiarize students with the use of statistical methods in psychological research and the techniques of descriptive statistics for quantitative research.
- Unit 1: (10 hours)

Introduction: Psychological Research; Relevance of Statistics in Psychological Research; Descriptive and Inferential Statistics; Variables and Constants; Scales of Measurement.

Frequency Distributions, Percentiles, and Percentile Ranks: Organizing Quantitative Data; ConstC-2ructing a Grouped Frequency Distribution, a Relative Frequency Distribution and a Cumulative Frequency Distribution; Computation of Percentiles and Percentile Ranks.

Graphic Representation of Data: Basic procedures; The Histogram; The Frequency Polygon; The Bar Diagram; The Pie Chart; The Cumulative Frequency Graph; Factors affecting the Shape of Graphs (Skewness and Kurtosis).

Unit 2: (14 hours)

Measures of Central Tendency: The Mode; The Median; The Mean; Calculation of Mode, Median and Mean from Raw Scores and Grouped Scores; Properties and Comparison of Measures of Central Tendency; Central Tendency Measures in Normal and Skewed Distributions; Effects of Linear Transformations on Measures of Central Tendency.

Measures of Variability: The Range; The Semi-Interquartile Range; The Variance; The Standard Deviation; Calculation of Variance and Standard Deviation from Deviation Scores and Raw Scores; Properties and Comparison of Measures of Variability; Effects of Linear Transformations on Measures of Variability.

Coefficient

SYLLABUS continued...

Unit 3: (14 hours)

Standard (z) Scores: Standard Scores; Properties of z-scores; Transforming raw scores into z-scores, Determining a raw score from a z-score, Some Common Standard Scores, Comparison of z-scores and Percentile Ranks.

The Normal Probability Distribution: Nature and Properties of the Normal Probability Distribution; Standard Scores and the Normal Curve; The Standard Normal Curve: Finding Areas when the Score is Known, Finding Scores when the Area is Known; The Normal Curve as a Model for Real Variables; The Normal Curve as a Model for Sampling Distributions; Divergence from Normality (Skewness and Kurtosis).

Unit 4: (12 hours)

Correlation: The Meaning of Correlation; Historical Perspective; The Scatterplot of Bivariate

Distributions; Correlation: A Matter of Direction; Correlation: A Matter of Degree; The Coefficient of
Correlation; Calculating Pearson's Correlation Coefficient from Deviation Scores and Raw Scores;
Spearman's Rank-Order Correlation Coefficient; Correlation and Causation; The Effects of Score
Transformations; Cautions concerning Correlation Coefficients.

Random Sampling and Sampling Distributions: Random Sampling; Using a Table of Random Numbers; The Random Sampling Distribution of the Mean: An Introduction; Characteristics of the Random Sampling Distribution of the Mean; Using the Sampling Distribution of Sample Means to Determine the Probability for Different Ranges of Values; Random Sampling With and Without Replacement.

- Practicum: Any 2 practicum pertaining to CC-2 (4 hours, per week per batch: 15-25
- students)
- 1. On Graphical representations (Frequency Polygon, Histogram, Pie Chart, Smoothed Curve, Ogive)
- 2. On computation of Central Tendency and Variability measures
- 3. On Skewness, Kurtosis, Normal Probability Curve- Areas and Z scores
- 4. On Correlation-Pearson Product Moment Correlation

ACADEMIC CALENDAR

A sample academic calendar is being displayed in order to have some basic understandings about the persuasion of the different academic activities by the respective College as well as University of Calcutta.

SAMPLE ACADEMIC CALENDAR

SEMESTER- I (Honours)

Session-2019-20

Time Period- July(4 week), August(4 weeks), September(4 weeks), October (2Weeks), November (1week)

Topics Allotted for CC1 & CC2 (theory and practical)-

Group A. (First and second week of July)

- Introduction: What is psychology? Perspectives on behaviour; Methods of psychology; Subfields of psychology; Psychology in modern India.
- Introduction: Psychological Research; Relevance of Statistics in Psychological Research;
 Descriptive and Inferential Statistics; Variables and Constants; Scales of Measurement.
- Frequency Distributions, Percentiles, and Percentile Ranks: Organizing Quantitative Data;
 Constructing a Grouped Frequency Distribution, a Relative Frequency Distribution and a Cumulative Frequency Distribution; Computation of Percentiles and Percentile Ranks.

Group B. (Third and fourth week of July)

- Perception: Perceptual processing, Role of attention in perception, Perceptual organization, Perceptual sets, Perceptual constancies, Depth perception, Illusions.
- Graphic Representation of Data: Basic procedures; The Histogram; The Frequency Polygon; The Bar Diagram; The Pie Chart; The Cumulative Frequency Graph; Factors affecting the Shape of Graphs (Skewness and Kurtosis).
- On Graphical representations (Frequency Polygon, Histogram, Pie Chart, Smoothed Curve, Ogive)

Group C. (First week of August)

- Learning and Motivation: Principles and applications of Classical conditioning, Operant conditioning, and Observational learning; Cognitive influences on learning; Perspectives on motivation, Types of motivation, Motivational conflicts.
- Memory: Models of memory: Levels of processing, Parallel distributed processing, Information processing; Reconstructive nature of memory; Forgetting; Improving memory.

Group D. (Second, Third and fourth week of August)

- Memory- a) Effect of spaced and unspaced method of learning on memorization capacity of the subject
 - Effect of retroactive inhibition on the memorization capacity of the subject
- Perception- To determine the rate of perceptual reversibility of the subject by using Human Profile/Flower Vase Card
- Measures of Central Tendency: The Mode; The Median; The Mean; Calculation of Mode, Median and Mean from Raw Scores and Grouped Scores; Properties and Comparison of Measures of Central Tendency; Central Tendency Measures in Normal and Skewed Distributions; Effects of Linear Transformations on Measures of Central Tendency.

Group E (First and Second week of September)

- Measures of Variability: The Range; The Semi-Interquartile Range; The Variance; The Standard Deviation; Calculation of Variance and Standard Deviation from Deviation Scores and Raw Scores; Properties and Comparison of Measures of Variability; Effects of Linear Transformations on Measures of Variability.
- 4. On computation of Central Tendency and Variability measures

Group F (Third and Fourth week of September)

 Standard (z) Scores: Standard Scores; Properties of z-scores; Transforming raw scores into z-scores, Determining a raw score from a z-score, Some Common Standard Scores, Comparison of z-scores and Percentile Ranks.

- 2. The Normal Probability Distribution: Nature and Properties of the Normal Probability Distribution; Standard Scores and the Normal Curve; The Standard Normal Curve: Finding Areas when the Score is Known, Finding Scores when the Area is Known; The Normal Curve as a Model for Real Variables; The Normal Curve as a Model for Sampling Distributions; Divergence from Normality (Skewness and Kurtosis).
- 3. On Skewness, Kurtosis, Normal Probability Curve- Areas and Z scores

Group G (First and second week of October)

- Correlation: The Meaning of Correlation; Historical Perspective; The Scatterplot of Bivariate Distributions; Correlation: A Matter of Direction; Correlation: A Matter of Degree; The Coefficient of Correlation; Calculating Pearson's Correlation Coefficient from Deviation Scores and Raw Scores; Spearman's Rank-Order Correlation Coefficient; Correlation and Causation; The Effects of Score Transformations; Cautions concerning Correlation Coefficients.
- 2. Random Sampling and Sampling Distributions: Random Sampling; Using a Table of Random Numbers; The Random Sampling Distribution of the Mean: An Introduction; Characteristics of the Random Sampling Distribution of the Mean; Using the Sampling Distribution of Sample Means to Determine the Probability for Different Ranges of Values; Random Sampling With and Without Replacement.
- 3. On Correlation-Pearson Product Moment Correlation Coefficient.

CLUB ACTIVITIES

There are various interactive clubs, viz.

- FILM AND CINE CLUB
- ECO CLUB
- CULTURAL CLUB
- QUIZ CLUB
- PHYSICAL ACTIVITY CLUB
- SOCIAL AWARWNESS CLUB

Students' involvement in the club activities are welcome.

STUDENTS' DUTIES

Students duties or responsibilities are-

- To study sincerely
- To visit College library on regular basis
- To participate in the various activities of the Department as well as the College
- To check College website and email on regular basis

South Calcutta Girls' College

AFFILIATED TO UNIVERSITY OF CALCUTTA B++ ACCREDITED (NAAC)

DEPARTMENT OF ZOOLOGY INDUCTION PROGRAMME

INTRODUCTION

South Calcutta Girls' College has a special position in Kolkata heritage. It is the first college established for women in south of Kolkata in July 1932 by eminent scholars and educationists. It was initially a sister organization of the Beltala Girls' School and functioned as a morning college in the school premises till mid July, 1946. The College then shifted to 72 Sarat Bose Road, Kolkata - 700025, where it stands now.

Department of Zoology

Year of Establishment: 2000 (General)

2006 (**Honours**)

Name of Programme: Under Graduate

GENERAL INFORMATION

College Timing: Classes are held from 10.00 a.m. to 5 p.m., Monday to Saturday. **Discipline**: Admission of the student implies an undertaking on the part of the student and their guardians to respect the rules and discipline of the College. Courteous behaviour is what we expect from all and render to all. The College reserves the right to issue Transfer Certificates in case of breach of discipline.

Rules:

- i) The students must be punctual and regular in attending classes.
- ii) Students must consult the College Notice Board everyday and comply, failing which the College will not be responsible for any inconvenience faced by them.
- iii) Students must wear the Identity Card issued by the College everyday on the college premises.
- iv) Attendance in regular classes and tutorials is compulsory for the students.
- v) Disciplinary action will be taken against any student using unfair means during examination.
- vi) Students must attend all extra-curricular activities organized by the Institution.
- vii) The tuition fees must be paid through the bank, twice a year (at the time of admission and in the month of January).
- viii) Students must take their mark-sheets, registration certificates within one month of the issue of notice by the office, failing which the college will not be responsible for the above-mentioned Documents.

ATTENDANCE

A student attending less than 60% of the total number of classes held shall not be allowed to appear at the concerned Semester Examinations and he /she has to pursue admission to the same Semester in the very next year for attending the classes and appearing at the said Semester Examination. Such attendance will be calculated from the date of commencement of classes or the date of admission, whichever is later.

➤ Marks allotted for attendance:

Attendance 60% or above but less than 75% — 6 Marks
Attendance 75% or above but less than 90% — 8 Marks
Attendance 90% or above — 10 Marks

BRIEF IDEA ABOUT CBCS SYLLABUS

SOUTH CALCUTTA GIRLS' COLLEGE

OUTLINE OF CHOICE BASED CREDIT SYSTEM FOR B.A./B.SC. PROGRAMME

A. Core Course (CC)

A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.

B. Elective Course

Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.

i) Discipline Specific Elective (DSE) Course: Elective courses which may be offered by the main discipline/subject of study is referred to as Discipline Specific Elective. This course is to advance knowledge and skill in the core course domain.

ii) Generic Elective (GE) Course:

An elective course chosen generally from an unrelated discipline/subject, with an intention to seek wide exposure, is called Generic Elective.

N.B.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and such electives may also be referred to as Generic Elective. [A Core Course (CC) of B.A/B.Sc. General may be treated as Generic Elective for B.A./B.Sc. (Honours) and B.A. (General)].

C. Ability Enhancement Courses (AEC)

The Ability Enhancement Courses (AEC) may be of two kinds: Ability Enhancement Compulsory Courses (AECC) and Skill Enhancement Courses (SEC).

- a. Ability Enhancement Compulsory Courses (AECC): AECC courses are the courses based upon the content that leads to Knowledge enhancement. These are mandatory for all disciplines.
- i) AECC1: Communicative English/MIL (Bengali);
- ii) AECC2: Environmental Studies.
- b. Skill Enhancement Courses (SEC): These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based knowledge and are aimed at providing competencies, skills, etc.

Practical/Tutorial

Every Core, Discipline Specific and Generic Elective Course shall have a Practical/Tutorial component. Wherever there is a practical, there will be no tutorial and viceversa.
